Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 1 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Election/Restrictions

Restriction to one of the following inventions is required under 35 U.S.C. 121:

- I. Claims 1-10 and 19-20, drawn to a method of gaming over a communication network comprising an end-user sending a request to an Internet service provider to access a game web site and a gaming server responding to an ISP, being in an acceptable location and working on behalf of the user, enables the user to access the game web site, classified in 709.
- II. Claims 11-18, drawn to a method of and a system for distributing targeted content over a communication network comprising an end-user sending a request to an Internet service provider or ISP for a web page and said ISP returning the requested web page to the user including targeted content based on the location of the ISP, classified in 705/14.

The inventions are distinct, each from the other because of the following reasons:

Inventions I and II are related as combination and subcombination. Inventions in this relationship are distinct if it can be shown that (1) the combination as claimed does not require the particulars of the subcombination as claimed for patentability, and (2) that the subcombination has utility by itself or in other combinations (MPEP § 806.05(c)). In the instant case, the combination as claimed does not require, as shown above, the particulars of the subcombination as claimed. Further, the subcombination has separate utility such

as returning by an ISP a requested web page to a user including targeted content based on the location of the ISP.

Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Jean D Janvier whose telephone number is 308-6287. The examiner can normally be reached on Monday-Thur 9:00-5:00.
